REASONS FOR ALLOWANCE

1. Claims 7-9 and 13-16 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record does not anticipate nor render obvious to one ordinary skilled in the art a display device comprising a combination of various elements as claimed, more specifically, a contact hole formed through the resin color filter layer to electrically connect the switching element and the pixel electrode, and the contour of the bottom of the contact hole having different length in longitudinal and transverse directions thereof and having round corners.

Hashiguchi ('907) discloses a display device comprising thin film transistor connected a pixel through a particular contact hole. However, Hashiguchi fails to disclose a display device comprising a combination of various elements as claimed, more specifically, 'a contact hole formed through the resin color filter layer to electrically connect the switching element and the pixel electrode, and the contour of the bottom of the contact hole having different length in longitudinal and transverse directions thereof and having round corners'.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
